

Onsite/Training/Short Term Engagement

One-on-one, tailor-made, custom training for YOUR company, on the topics YOU want!

Our Professional Services Specialists will use their years of industry knowledge and RQ expertise to build a workshop specifically for your company. Whether you are new to iQmetrix, an experienced user, or have a single or multiple locations, we can build an educational program for you.

You chose the levels of the employees you want trained and the topics. OR, allow us to customize your training based on an in-depth database review and a detailed fact finding call about your employees, processes and procedures currently in place.

Examples of our most popular topics include:

- o Executive Training – Reports, dashboards & metrics: How to use them efficiently and effectively
- o Reports – How to best use the rich and robust suite of reports available in the reporting module
- o Inventory Best Practices
- o Finance Training
- o Best Practices for Individual RQ Modules
- o Sales Management Training on Utilizing RQ's Operations and Marketing Modules
- o Sales Management Training – Operations, Marketing, Customer Experience
- o Identifying the areas in which you can improve and make best use of RQ
